

# **WRITING A KID'S BOOK WITH AI**

**CHATGPT + MIDJOURNEY**

**I ASKED CHATGPT TO WRITE A CHILDREN'S BOOK WITH ME.**

**FIND THE STEP-BY-STEP GUIDE**  
**HERE.**

**I THEN REQUESTED MIDJOURNEY PROMPTS FOR KEY MOMENTS OF THE STORY.**

**USING MIDJOURNEY, I GENERATED VISUAL IMAGES FOR THE BOOK USING THE PROMPTS CHATGPT WROTE.**

**HERE'S THE OUTCOME...**

***In a quiet countryside filled with blooming flowers, there was a curious girl named Anna. She had blonde hair and blue eyes and loved flowers, butterflies, and her dog Sparky. Today, Anna's adventure would be full of surprises as she set off with Sparky by her side.***

***As Anna and Sparky explored the meadow, something magical happened. An orange butterfly flew over her. She was so happy! But the butterfly seemed afraid, it kept flying in different directions.***

***It turns out, a curious cat was causing chaos, sending the butterfly into a flurry. Anna knew the cat only wanted to play but she needed to protect the butterfly.***

***She talked to the cat and said, 'Hello Mr. Cat, I know you want to play with the butterfly but she's scared. Don't worry, I'll play with you instead.'***

***With her special gift, Anna carefully introduced Mr. Cat to the butterfly and taught him how to be gentle. The butterfly is happy she's now safe. She stays flying above their heads and wants to be friends.***

***Anna stood proudly with Sparky, Mr. Cat, and the rescued butterfly. She felt a newfound confidence, knowing that with kindness and understanding, she could make others happy.***

***Anna, Sparky, Mr. Cat, and the butterfly are now best of friends.***

# **THE MAIN PROMPT I USED:**

**You are a children's book author. We are going to write a story about a girl character named Anna. It should be fun and exciting, and have a lesson about friendship and kindness.**

**She likes flowers and butterflies. I want you to ask 5 multiple-answer questions one at a time to build her story.**
